

FOR IMMEDIATE RELEASE:

**From moon jellyfish to moon landings,
visit Great Lakes Science Center and Greater Cleveland Aquarium
together for a limited time for one low price**

CLEVELAND (September 4, 2019) – Great Lakes Science Center and Greater Cleveland Aquarium are once again teaming up to offer a special admissions package for fall family fun.

Families can visit both downtown attractions for only \$20 per person from October 1-5 and 8-12. The special 2-for-\$20 combo package is good for one general admission ticket to each attraction and can be purchased online via either attraction’s website, or in-person at the box office at either location, but only during the two week period of the promotion.

With this offer, one guest can experience two attractions and save as much as 45 percent off the regular combined price. Tickets must be redeemed first at the attraction from which they were purchased, and must be redeemed during the promotional period.

“This is an excellent opportunity for Northeast Ohio families to feed their curiosity, make memories, and take advantage of two of the top area attractions for hands-on, interactive fun,” said Science Center President & CEO Kirsten Ellenbogen.

“From the deep sea to deep space, both destinations have a lot to offer inquisitive people—especially children—who appreciate serendipitous discovery,” says Aquarium General Manager Stephanie White, who hopes the autumn offer gives families the opportunity to explore these attractions for the first time or to experience their evolution.

The offer applies to guests ages 2 and older. It is good for one visit per attraction and cannot be combined with any other discount or used for special events. Greater Cleveland Aquarium Passholders and Science Center Members can show their cards for a special \$10 admission fee at either destination throughout the two-week promotion.

For complete details, or to purchase tickets, visit greaterclevelandaquarium.com or GreatScience.com.

*(Editor's note: **The Science Center will be closed for its annual maintenance period from September 3 to 13.** The fall-winter schedule of 10 a.m. to 5 p.m. Tuesday through Saturday and noon to 5 p.m. Sundays will resume beginning September 14. The Science Center will once again be closed during all Cleveland Browns daytime home games.)*

About Great Lakes Science Center

Great Lakes Science Center, home of the NASA Glenn Visitor Center, makes science, technology, engineering and math (STEM) come alive for more than 300,000 visitors a year through hundreds of hands-on exhibits, temporary exhibitions, the Cleveland Clinic DOME Theater, Steamship *William G. Mather*, daily science demonstrations, seasonal camps, and more. The Science Center is funded in part by the citizens of Cuyahoga County through Cuyahoga Arts and Culture. Visit **GreatScience.com** for more information.

About Greater Cleveland Aquarium

Did you know archerfish are living squirt guns with amazing aim? That bioluminescent bacteria give flashlight fish their glow? Or that a giant Pacific octopus is smart enough to open jars and solve puzzles? The Greater Cleveland Aquarium energizes curiosity about aquatic life and the environment to inspire positive action. Visit **GreaterClevelandAquarium.com** to learn more.
