**TAKING 2-FOR-1 TO A NEW LEVEL:
A 2-WEEK COMBO PACKAGE LETS 1 EXPLORER VISIT 2 FAMILY-FRIENDLY
CLEVELAND ATTRACTIONS FOR JUST \$20**

CLEVELAND, OH – **Great Lakes Science Center** and the **Greater Cleveland Aquarium** are teaming up for a special fall **2-for-\$20** package. For two weeks in October, guests can explore both downtown attractions for just \$20 all in – a savings of 23 – 42% per guest.

The special 2-for-\$20 combo ticket can be purchased online. It is good for one visit per attraction for the dates **Tuesday, October 3 – Saturday, October 7** and **Tuesday, October 10 – Saturday, October 14, 2017** from **10am - 5pm**. Tickets purchased online must be redeemed first at the attraction from which they were purchased. Combo 2-for-\$20 tickets also will be available at each box office location but only during the two weeks of the promotion.

“We complement each other well,” explains Aquarium GM Tami Brown. “Both attractions are dedicated to asking guests to really consider the world around them and their roles in it.”

Science Center President & CEO Kirsten M. Ellenbogen agrees. “Both destinations inspire an appreciation of science, be that through nature or experimentation,” says Ellenbogen. “The science center brings science, technology, engineering and math to life while the aquarium brings you nose-to-nose with aquatic life.”

Greater Cleveland Aquarium Pass Holders and Great Lakes Science Center Members can show their cards for a special \$10 general admission fee at either destination throughout the 2-week promotion.

This offer applies to guests ages 2 and older. It is good for one visit per attraction and cannot be combined with any other discount or used for special events. For complete details or to buy 2-for-\$20 combo tickets, visit [greaterclevelandaquarium](http://greaterclevelandaquarium.com) or GreatScience.com.
