

# CONSTRUCTION DAY

**MARCH 28, 2026**

*Join Great Lakes Science Center for our second annual Construction Day!*

Building on the success of the Science Center's Summer of Innovation series, this one-of-a-kind showcase offers sponsors an opportunity to engage visitors through hands-on STEM learning experiences that focus on construction. All sponsors will have the opportunity to showcase their industry expertise at an activity station within the Science Center, while our team delivers thematic programs throughout the day.

Construction Day will run from **10 a.m. to 3 p.m.** on **Saturday, March 28** at the Science Center, with setup immediately before and load-out immediately after.

# CONSTRUCTION DAY
