

GREAT LAKES SCIENCE CENTER'S

SUMMER OF INNOVATION

JUNE 14 - SEPTEMBER 13, 2025

Join Great Lakes Science Center for our inaugural Summer of Innovation series!

Building on the success of the Science Center's annual Manufacturing Day, this one-of-a-kind showcase offers sponsors an opportunity to engage with our visitors through hands-on STEM learning experiences. All sponsors will have the opportunity to showcase their industry expertise at an activity station within the museum, while Science Center staff deliver thematic programs throughout the day.

Centered around four distinct themes, each installment in the series will bring together industry leaders and education partners for a day-long celebration of the innovations driving Northeast Ohio's future. An extension of the Science Center's ongoing workforce development initiatives, the series aims to raise public awareness around STEM careers in our region.

Each installment of the Summer of Innovation series will run **from 10 a.m. to 3 p.m.** on a **Saturday** at the Science Center, with setup immediately before and load-out immediately after.

GREAT LAKES SCIENCE CENTER'S
SUMMER OF INNOVATION
