## **Camp Curiosity is in session over winter break at Great Lakes Science Center**

**CLEVELAND** (October 29, 2018) – Get the kids to put down their screens and gadgets over winter break with a hands-on, interactive Camp Curiosity science camp at Great Lakes Science Center!

Kicking off on Wednesday, December 26, the Science Center has six different themes for kids in kindergarten through eighth grade to choose from, featuring everything from engineering to chemistry, and physics to robots! Camps run December 26-28 and January 2-4.

All camps are separated by age, and camp activities are tailored for each age group. Your camper can choose one day of adventure, or multiple days for a STEM-filled journey during their winter school break. Campers can experiment with chemical reactions, practice problem-solving with robots, learn how to protect our Great Lake, build a rocket, put physics into motion, and get hands-on with fabrication technology.

This year's camps include:

**Chemical Concoctions** – Wednesday, December 26  
**Movers & Makers** – Thursday, December 27  
**Enviro Lab** – Friday, December 28  
**Future Engineer** – Wednesday, January 2  
**Robo Studio** – Thursday, January 3  
**Go for Launch** – Friday, January 4

Winter break camps are \$55 per day (\$50 for Science Center members) and run from 8:30 a.m. to 3:30 p.m., with options for before-care from 7:30-8:30 a.m. and after-care from 3:30-5:30 p.m. for an additional fee. Sign up for all six days of camp and receive a \$30 discount. Boxed lunches are available for pre-order as well for \$7.50 each day. Registration is available online at [GreatScience.com](http://GreatScience.com) or by calling 216-621-2400.

*(Editor's Note: The Science Center's fall/winter operating hours are 10 a.m. to 5 p.m. Tuesday through Saturday and noon to 5 p.m. on Sundays. The Science Center is closed on Mondays and during all Cleveland Browns home games. The Science Center is also closed on Thanksgiving, Christmas Eve and Christmas Day.)*

### **About Great Lakes Science Center**

Great Lakes Science Center, home of the NASA Glenn Visitor Center, makes science, technology, engineering and math (STEM) come alive for more than 300,000 visitors a year through hundreds of hands-on exhibits, temporary exhibitions, the Cleveland Clinic DOME Theater, Steamship *William G. Mather*, daily science demonstrations, seasonal camps, and more. The Science Center is funded in part by the citizens of Cuyahoga County through Cuyahoga Arts and Culture. Visit **GreatScience.com** for more information.
